

Definitive Anaesthetic Trauma Care (DATC) Course

DSTC & DATC Australasia in association with IATSIC (International Association for Trauma Surgery and Intensive Care) announce courses for 2020.

THE COURSE PROVIDES AN OPPORTUNITY TO ANALYSE SPECIFIC ANAESTHETIC AND GENERAL SURGICAL CONSIDERATIONS RELATED TO TRAUMATIC INJURY.

YOU WILL EXPLORE:

- Anaesthetic management (including critical care considerations) in complex scenarios.
- Anaesthetic options and techniques for complex trauma patients.
- ANZSCA CPD requirements for CICO and critical bleeding/major haemorrhage.
- Insight into surgical decision making from a multidisciplinary approach.

Registration only available for anaesthetic consultants and fellows (post-exam)

The Military Module is an optional third day for interested clinicians and Australian Defence Force personnel and is currently available at the time of the Brisbane course only.

Definitive Surgical Trauma Care (DSTC) Course

DSTC & DATC Australasia in association with IATSIC (International Association for Trauma Surgery and Intensive Care) announce courses for 2020.

THE DSTC COURSE IS THE PERFECT OPPORTUNITY TO FOCUS ON:

- Surgical decision-making in complex scenarios
- Operative technique in critically ill trauma patients
- Hands on practical experience with skilled instructors (both national and international)
- Haemorrhage control techniques and the ability to handle major thoracic, cardiac and abdominal injuries.

DSTC is recommended by the Royal Australasian College of Surgeons for all consultant surgeons and final year trainees (registration only available to qualified surgeons and surgical trainees in their final two years of advanced training).

The Military Module is an optional third day for interested clinicians and Australian Defence Force personnel and is currently available at the time of the Brisbane course only.
